Route Tayeb Mhiri Aouina, Tunis

Currently project leader and Co-Founder of two projects, developing the company's strategy for using technological resources ensuring technologies are used efficiently, profitably and securely. Also evaluating and implementing new systems and infrastructure.

I worked as a freelancer, for years, on several projects (analyze, design, development, deployment) using several languages and technologies (NodeJS, Angular, JEE, Spring Boot, Php, Amazon EC2, Docker, Apache, Nginx, Redis, ...) delivering an optimized project ready for the production.
