Route Tayeb Mhiri Aouina, Tunis

Interests

I worked as part-time coach in a start-up teaching (HTML, JavaScript, CSS, NodeJS, Angular, Spring Boot) and I worked as a freelancer, for years, on several projects (analyze, design, development, deployment) using several languages and technologies (NodeJS, Angular, JEE, Spring Boot, Php ,..) and deployed them myself (Amazon EC2, jenkins, Docker ,Apache ,Nginx,..) and this introduced me, to the professional life meaning to be in contact with customers (gathering information and extract the needs) and deliver an optimized product ready for the production.
